

## **METRO NIGHT WORKING AND LINE CLOSURE WORKS IN YOUR AREA: MONDAY 15 JUNE 2026 TO SUNDAY 21 JUNE 2026**

To keep Metro running smoothly for our 30 million passengers every year, we regularly need to work on the railway lines when trains do not operate, between midnight and 5.30am.

Our engineering teams work extensively on the network every night, carrying out inspections, patrols and maintenance works and clearing litter. Metro is one of the UK's busiest railways and needs looking after, so some noise and disturbance for our neighbours is to be expected.

Below you will find details of the larger engineering projects – those involving the use of heavy or particularly noisy machinery. Sometimes there will be late changes to this schedule, which will be posted at [nexus.org.uk/nightworks](https://nexus.org.uk/nightworks) and sent out by email. For security reasons, we no longer list all the works taking place at night.

If you have concerns about planned work, please contact Customer Relations at [customerrelations@nexus.org.uk](mailto:customerrelations@nexus.org.uk).

We apologise for any disturbance our work causes you and assure you that every effort will be made to keep inconvenience to a minimum.
